AOFSRR 2015 in conjunction with User Meeting 2015

Thursday 26 November 2015

Advanced Materials II - Oliphant Auditorium (14:15-15:45)

-Conveners: Somchai Tancharakorn

time	[id] title	presenter
14:15	[15] New Insight into the Metal-to-Insulator Transition in Vanadium Dioxide.	Prof. SMITH, Kevin
14:45	[148] Synchrotron XPS, EXAFS and IR studies of atomically precise chemically made clusters	Dr GOLOVKO, Vladimir
15:05	[145] Observation of crystalline orthogonal self-stratification in spin-coated conjugated polymer thin films with depth-sensitive X-ray scattering	Dr GANN, Eliot
15:25	[180] Synthesis and Characterisation of (M1-xFex)2SnO4 (M = Mn, Co, Zn) ternary transition metal-tin-oxygen spinel systems	Dr SOEHNEL, Tilo
