

AOFSRR 2015 in conjunction with User Meeting 2015

Wednesday 25 November 2015

Advanced Materials I: Sponsored by AXAA - Oliphant Auditorium (11:00-12:30)

-Conveners: Hongjie Xu

time	[id] title	presenter
11:00	[193] Unraveling how electronic and spin structures control macroscopic properties of manganite ultra-thin films	Dr RUSYDI, Andrivo
11:30	[65] The Hybrid technique for accurate transmission XAS on 1-10mM Ni solutions	Dr STEPHEN P, Best Dr TRAN, Chanh Q Prof. CHANTLER, Christopher Thomas Mr ISLAM, M Tauhidul
11:50	[26] Fluorine-Substituted Metal Hydrides for Thermal Energy Applications	Dr HUMPHRIES, Terry
12:10	[142] EXAFS insights into the crystal-chemistry of nickel in tropical ultramafic areas: A survey at the molecular environmental level in New Caledonia.	Dr JUILLOT, Farid
