

# Australian Synchrotron

## Friday 20 November 2020

### Session 12 - Earth, Atmosphere and Environment (10:00-11:50)

time	[id] title	presenter
10:00	[280] Non-invasive imaging of hydraulic function in leaves, stems and roots	CHOAT, Brendan
10:30	[233] Micro-Computed Tomography (MCT): A BRIGHT new beamline at ANSTO/Australian Synchrotron	STEVENSON, Andrew
10:50	[217] Soil carbon research from past, present and future using synchrotron-based techniques	Dr WENG, Han
11:10	[197] Latest developments and capabilities at the Infrared Microspectroscopy Beamline	Dr TOBIN, Mark
11:30	[191] "Wax On – Wax Off" Using Infrared Reflectance for minimally invasive in vivo monitoring of changes in leaf epicuticular waxes	Ms KHAMBATTA, Karina
