

# ANBUG-AINSE Neutron Scattering Symposium, AANSS 2020

## Thursday 12 November 2020

### Biological Systems: Session 5 (14:50-16:30)

-Conveners: Leonie van 't Hag

time	[id] title	presenter
14:50	[132] Model membrane systems: Applications in ocular drug delivery and antimicrobial actions	Dr SHEN, Hsin-Hui
15:35	[76] Advancements in the provision of Deuterated Lipids for Neutron applications from the National Deuteration Facility	Dr YEPURI, Rao
15:55	[37] Protein deuteration extending structural characterisations by Small Angle Neutron Scattering with Contrast Variation	DUFF, Anthony
16:15	[7] Resolving the DNA interaction of the MexR antibiotics resistance regulatory protein	CAPORALETTI, Francesca
