Introduction to k0-NAA

Wednesday, 16 September 2026 13:30 (210)

The training component of the k0 workshop is intended for those familiar with “classical” (relative) NAA who are new to the k0-method.

This training session outlines the fundamentals of the k0-method of standardisation, including the advantages and disadvantages compared to the classical relative method. Equipment and software requirements will be described.

Presenter(s) : Mr STOPIC, Attila (ANSTO)

Session Classification : Training

Track Classification : Fundamentals of k0-NAA
