Materials Diffraction and Scattering with Industry

Thursday, 20 November 2014 17:30 (90)

An increasing number of industrial users are looking to the SAXS/WAXS and PD beamlines for their materials characterisation needs. In recent years commercially-relevant projects from a broad range of fields, including primary industry, energy materials and mining, have met with success due to staff expertise and dedication and the high quality of the facilities.

Keywords or phrases (comma separated)

Industry, materials, diffraction, SAXS, WAXS, PD

Summary

Primary author(s) : Dr ROSS, Tamsyn (Australian Synchrotron)

Presenter(s) : Dr ROSS, Tamsyn (Australian Synchrotron)

Session Classification : Welcome Function, Poster Session, Exhibition
