

OPAL - Thermal Neutron Guides TNG1 and TNG3 Replacement

Wednesday, 29 November 2017 17:10 (6)

During the 2019 major shutdown, ANSTO has set up a project to remove existing Thermal Neutron Guide (TG1-3) in-pile assembly and replace it with a new in-pile assembly containing an additional TG-2 A/B in-pile guides.

The purpose of this presentation is to provide following:

- Brief description of ANSTO neutron guide configuration;
- Improvements made to enable easier future guide installation /removal
- Provide overall project progress in preparation for the replacement.

Formal Invitation Letter Required

No
