

# Beam Diagnostics Collaboration Meeting

**Wednesday 18 March 2015 - Wednesday 18 March 2015**

**Australian Synchrotron**

## Scientific Programme

Collaborations are invited on beam diagnostics for particle accelerators, including:

Colliders

Light sources

Heavy Ion Accelerators

Medical Accelerators

Linacs

FELs

Participants are invited to present their present or future projects or requirements which they would like to collaborate on with other labs to share resources and try to avoid unnecessary duplication effort.
