

# User Meeting 2018

## Thursday 22 November 2018

### Parallel Session 3: Advanced Materials 1 - Monash Biomedical Imaging Auditorium (11:15-12:45)

-Conveners: Chris McNeill

time	[id] title	presenter
11:15	[109] Elastic Flexibility in Molecular Crystals	Prof. MCMURTRIE, John
11:45	[59] Strategies for morphological control in organic photovoltaic devices	Dr MITCHELL, Valerie
12:00	[56] Element-specific contributions to the electronic structures of inorganic cesium lead halide perovskites revealed by resonant X-ray photoelectron spectroscopy	Dr JIAO, Xuechen
12:15	[36] Low energy electron inelastic mean free path of Zinc from XAFS using XERT techniques at room temperature.	Prof. CHANTLER, C.T.
12:30	[129] Oxidant or Catalyst for Oxidation? A Study of How Structure and Disorder Changes Selectivity for Direct vs. Catalytic Oxidation Mediated by Manganese (III,IV) Oxides	HOCKING, Rosalie
