ANBUG-AINSE Neutron Scattering Symposium, AANSS 2018

Monday 19 November 2018

Topical Session 1: Advanced Materials (11:00-12:50)

-Conveners: Richard Mole

time	[id] title	presenter
	[91] Magnetic Interface Phenomena in Nano-Architectures and their Applications	CAUSER, Grace
	[7] Theoretical Study of a Family of Lanthanoid-Dioxolene Single-Molecule Magnets	Dr CALVELLO, Simone
	[85] Investigation of phonon dynamic in single crystal lead-halide perovskites by inelastic neutron scattering	DUBAJIC, Milos
	[40] Solid Ionic Conductors for Energy Applications: Developing a Complete Picture from Structure and Dynamics	Ms CHEUNG, Emily
	[14] COMBINING X-RAY AND NEUTRON DIFFRACTION AND MODELLING FOR BETTER UNDERSTANDING ADVANCED MATERIALS	AVDEEV, Max
